

RIVERSIDE

Riverside Business Park houses Harlow International's headquarters and is a state-of-the-art, purpose-built secure residential and commercial estate in Al Jadryah, Baghdad. It is a statement of our commitment to the future of Iraq and was designed with the future in mind. This fortress of buildings was built with extreme care and attention both for the comfort and safety of those living and working there. Riverside offers secure and comfortable accommodation and business facilities.

The interiors of the facility were designed by a prominent Iraqi designer and as such there is the feeling of being immersed in a prestigious hotel, creating an environment of relaxed serenity with invisible security and 5* facilities in the centre of Baghdad. On the edge of the Tigris River there are multiple accommodation options with singles, doubles, shared bathrooms and en-suites all available. All rooms have the essential amenities including satellite TV, internet and fire protection with daily room maid cleaning and a full laundry service.

We have fully-serviced offices that provide all the necessary business needs for international companies wishing to get on with their business in Iraq. Our office facilities provide open plan or private offices with furniture and IT equipment, conference rooms, full internet access with high speed wifi connection throughout, plus translators, administrative staff and government liaison officers, should you require them.

In addition to the basic provisions there is a well-equipped gym, a luxury outdoor pool and a five-star restaurant serving international cuisine to its residents from around the globe. Our catering department provides three meals a day that can be tailored to your preferences, while there are a number of indoor and outdoor spaces for client catering.
