

## AL SUWAYRAH AIR BASE

The Suwayrah Air Base Rehabilitation Project is managed through both our Baghdad and Seoul offices. In collaboration with Korean Aerospace Industries (KAI) the whole projects consists of the renovation of the existing runway, taxiway, shelter and lodging. We are contracted for the rebuilding of the new runway and terminal facilities, including provision of all local resources, life support and security.

The project requires coordination with key individuals from the Iraqi Ministry of Defense to ensure all elements are according to strict guidelines and local regulations, as well as the Iraqi Air Force. Harlow International are also involved in the project management of critical items, including the power plant, water treatment factory, pipelines, fuel station, and sewage station and its full network for the air base.

MINISTRY OF DEFENSE, IRAQI AIR FORCE, KAI

## TRADE BANK OF IRAQ

TBI is the first bank to open branches in Iraq with a clear strategy for opening ATMs throughout the country and increasing the number of Visa cardholders. The Bank provides direct finance for major infrastructure projects in Iraq and arranges larger loans via groups of banks.

Al Thaware Security Services are providing both mobile and static security services and have a consistent and progressive training programme at every branch with 500 personnel in total spread across all the Bank's branches in Iraq.
